

## Two Best Practices Successfully Adopted and Implemented by the Institution

### 1. Developing research culture among Undergraduate students:

Amrithanthu Vidya (Knowledge has no end) are the words embedded in the emblem. There is a growing enthusiasm and a new found awareness in students towards research which is mainly due to the focus laid on research by the institution. The college strives to create an atmosphere kindling interest towards research in the young minds and to ensure an urge for innovation and intellectual curiosity in them. The institution aims at planting the seed of curiosity in the minds of students at an early stage. Once students acquire the research frame of mind, it paves the way for greater avenues for research. Thus the ultimate goal of education that is, development of students' personality, creativity, independent thinking, is realized. Keeping all this in mind the institution has taken up research as one of its main objectives. The scope for research in curriculum is not much. Students are not aware of the possibilities in the field of research. The institution aims at instilling in them a research oriented thinking, which in turn will give them an idea of what they have to pursue in this process that boosts their confidence. The institution gives primary importance to impart research skills in students which will help them to synthesize, analyse and interpret information using appropriate disciplinary methodology. The college creates a scope to include this practice in EC and CC. This EC and CC have been made part of curriculum. Our institution aims at extending laboratories and library facilities to students on realizing the prevailing attitude towards research. The institution tries to set clear goals connected to research and this is effectively communicated to students for their benefit. Every activity conducted under EC & CC tries to fit in a concept of research.

### 2. Inculcating a sense of discipline in every aspect of life Goal :

The college aims at securing its objectives with excellence. A larger emphasis is laid on the modalities followed. In this regard college believes that discipline is the key to success and strives hard to provide well-disciplined conducive atmosphere for learning. Discipline in the class room, campus, in the conduct of activities and society improves the attitude and behaviour of students in their academic performance. Discipline is inducted in behaviour, study, performance and in every walk of life. More than this it helps in personal and professional growth and leads to a value added education. The aim of the college is to instil self-discipline and a sense of morality that leads to excellent in performance. Discipline plays an important role in achieving college's mission of educating the students and it creates a positive learning environment. Our College believes in creating a sense of discipline in the formative period. It is the responsibility of college to ensure that our students should be aware of what is expected of them and it is equally our responsibility to protect them from harmful influences in the environment. The students come from various backgrounds. Therefore discipline plays important role in the studentship. The faculty and management believe in having an optimal learning atmosphere by inculcating discipline within and outside the campus. This is achieved through a code of conduct of the Institution. With a view to build an ideal atmosphere in the college premises, students are expected to abide by the college regulations laid down in the calendar as well as those formulated from time to time by the Principal. This policy outlines the basic structure of the procedure for student discipline. Our institution tries to incorporate discipline in students in every stage of development.
